MINING USE PERMIT and RECLAMATION PLAN PROCESS

NOTE: THIS APPLICATION IS USED FOR MINERAL PROJECTS ONLY.

This list is intended to meet the requirements of Government Code Section 65940.

1. All Applications must go through a pre-application review process prior to acceptance. Applications will be reviewed by appointment only, and will not be accepted over the counter or through the mail.
2. **Application Fees:**
Mining Use Permit and Reclamation Plan.....**\$4,899.00**
3. Completed **“Use Permit” and “Reclamation Plan Application”**.
4. Completed **“Mining Environmental Assessment”**.
5. One copy of the current **County Assessor's Map** with the property of the proposed land division delineated shall be submitted with the application.
6. One copy of the **Current Deed** from the Official Records of the County shall be submitted with the application. If the deed shows a corporation as the owner, a copy of a Resolution from the Corporation authorizing this application, shall be submitted.
7. Copy of a **Notarized Statement** indicating that all owners of a possessory interest have been notified of uses described in both this application and supporting documents. (see example next page).
8. The proposed **Site Development Plan** shall be clearly and legibly drawn to scale on drawing sheets of at least 18" x 24" paper or larger. Use a standard engineering or architect's scale. **Three (3) folded copies** of all development plans shall be submitted with the application for preliminary review, plus **one (1) set of reduced copies** (8 ½" x 11" or 11" x 17"). The site plan is the “map” of the proposed project, showing what is currently existing on the site and what is proposed as part of the project. Aerial photographs are suitable. One or more site plans, identifying the following may be utilized:
 - A. Title Block containing the following:
 1. Project name, if any
 2. Applicant's name
 3. Property owner's name, if different than applicant.
 4. Assessor Parcel Numbers
 5. Existing zoning
 6. Proposed zoning, if different than existing zoning
 7. Source of domestic water (well, water agency or other).
 8. Source of industrial water

- 9. Method of sewage disposal (septic tank, sewer agency or other).
- 10. Agency to provide fire protection
- 11. Source of topographic information.
- B. Vicinity map, showing the location of the subject property in relation to the surrounding area and the proposed haulage routes.
- C. Boundaries and topographic details of the site.
- D. Topographic details after completion of reclamation.
- E. Location of all existing and proposed access roads.
- F. Location and identification of areas to be mined, waste dumps, topsoil storage piles, tailings ponds, and other areas of surface disturbance.
- G. Location of existing and proposed structures, utility facilities, and wells.
- H. Existing stream channels and bodies of water, and proposed modifications.
- I. By use of overlay symbol or color, depiction of separate mining phases if applicable.
- J. Orientation (North arrow), and scale (e.g. 1"=500', etc.) of the map.
- K. Typical + scale cross sections of berms, pit walls, stream diversions, tailings, storage areas, and waste dumps.
